

Take a step....

on the Path to Zero Waste

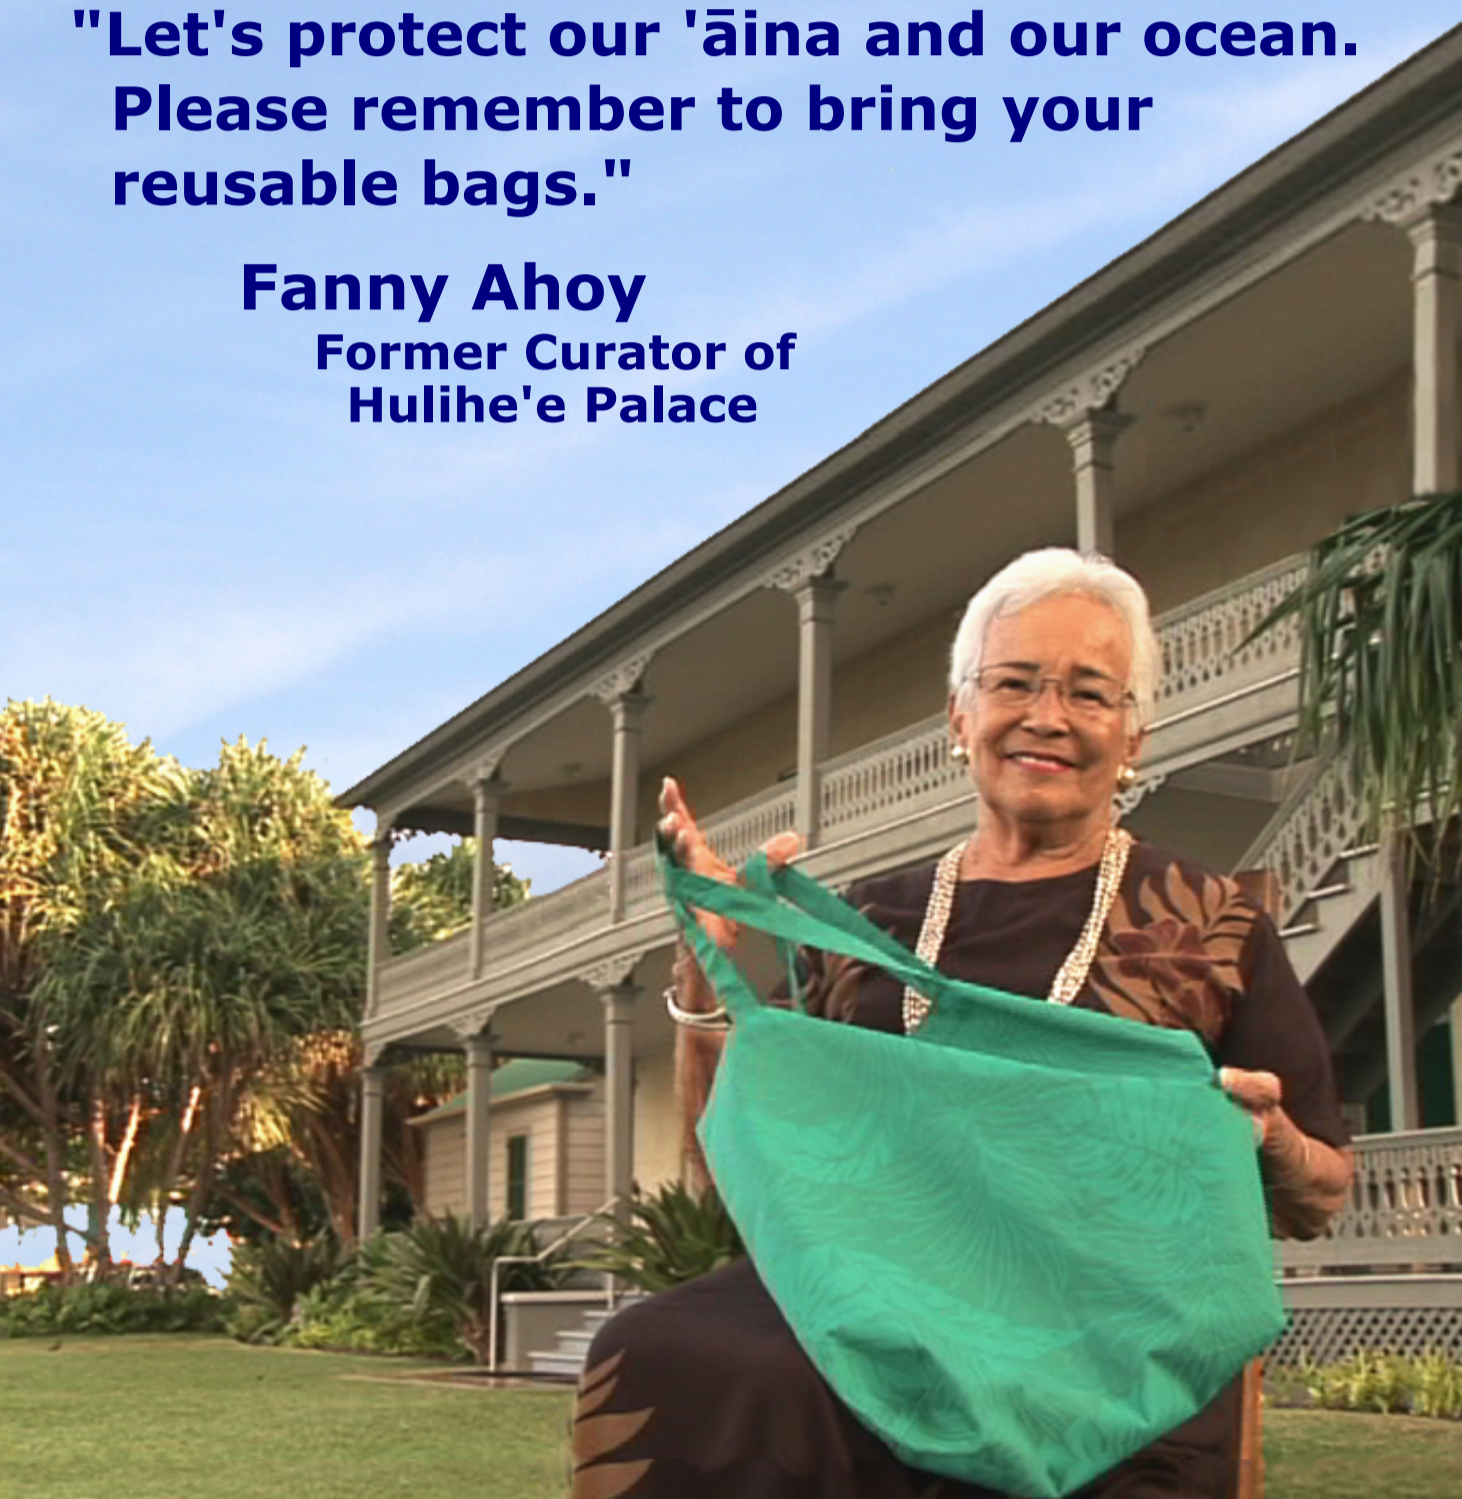

**Take REUSABLE BAGS
when you go shopping.**

Say "no thanks" to plastic and paper.

"Let's protect our 'āina and our ocean.
Please remember to bring your
reusable bags."

Fanny Ahoy

Former Curator of
Hulihe'e Palace

Bring Your Bags

Reusable bags made from washable fabric are long lasting. Each one can replace thousands of plastic bags.

Plastic bags kill fish, turtles, birds and other animals that mistake plastic for food.

Hawai'i County Plastic Bag Reduction Ordinance

- Beginning January 17, 2013, if retailers, restaurants and farmers markets provide single use plastic carryout bags, they must charge a fee.
- Allows for plastic bags to be used for bulk items such as meat, fish, nuts, grains, fresh produce, small hardware, garments and Rx drugs.
