VEHICLE DISPOSAL ASSISTANCE PROGRAM-PRIVATE PROPERTY:

DISPOSAL OF DERELICT VEHICLES LEFT UNATTENDED ON PRIVATE PROPERTY

ELIGIBILITY REQUIREMENTS

The Vehicle Disposal Assistance Program-Private Property (VDAP-PP) assists property owners in Hawai'i County with the disposal fee of up to two derelict vehicles that have been left on their private property without their permission. A property owner can dispose of up to two (2) derelict vehicles per property, per calendar year. Please review these requirements and instructions carefully. If any of these requirements are not met, your application will be denied.

Property Owner Eligibility:

- Two vehicles per property owner, per calendar year (property ownership will be verified with County Real Property website). The Derelict/Abandoned Vehicle Coordinator will keep a log of all property owners who participate in this program and will refuse any additional vehicles.
- The property owner is responsible for having the vehicle transported from its current location to the County's contracted vehicle disposal facility. The property owner will also be responsible for all costs associated in getting the vehicle from its current location to the County's contracted vehicle disposal facility. The County will only pay the disposal fee.

Vehicle Eligibility:

- The vehicle must meet criteria to be deemed derelict as defined under HRS Sec.290-8 (see below).

§290-8 Derelict vehicle. A vehicle shall be deemed a derelict vehicle by the administrative head of the county agency designated to carry out section 290-1, or by the executive director or a representative of the executive director of the Hawaii public housing authority in the case of a vehicle that has been abandoned on property owned, managed, or administered by the authority, if a part has been removed or material damage to the vehicle has rendered the vehicle inoperable and one of the following conditions exists:

(1) The vehicle is registered for the current registration period and the registered and legal owners no longer reside at the addresses on record with the county director of finance;

(2) The vehicle has been registered for the current or previous registration period and the registered and legal

owners disclaim ownership, or a notice of transfer has been submitted by the registered and legal owners and recorded with the director of finance and the new owner has not transferred the title or registration into the new owner's name within thirty days of release;

(3) The vehicle identification number and license plates have been removed so as to nullify efforts to locate or identify the current registered and legal owners;

(4) The vehicle has not been registered for the previous twelve month period; or

(5) The vehicle registration records of the county director of finance contain no record that the vehicle has ever been registered in the county.

Prior to authorizing the removal of a derelict vehicle, the administrative head of the county agency designated to carry out section 290-1 or the executive director or a representative of the executive director of the Hawaii public housing authority in the case of vehicles that have been abandoned on property owned, managed, or operated by the authority, shall notify the county chief of police only if the vehicle is reported stolen or otherwise needed for police investigation. - The vehicle must be a regular passenger vehicle, pick-up truck, or van that weighs no more than 3 tons (6,000 lbs.). Heavy equipment, mini-buses, and any other vehicle over 3 tons are not eligible for this program.
- The vehicle can have up to five (5) tires mounted or within the vehicle. If any vehicle comes in with more than 5 tires, the vehicle disposal facility has the right to charge the registered owner or refuse the vehicle in its entirety.
- The vehicle must be clean and clear of household trash, hazardous waste, extra tires, or any other excessive waste items. Determination of “excessive waste” will be made at the discretion of the vehicle disposal facility.
