

# We Use Island-Friendly Food Containers

Compostable  
containers may  
break down and  
become soil.

Avoid  
polystyrene foam.  
It pollutes  
the 'āina.

Using  
compostable  
food containers  
shows we care for  
our island home.

The County of Hawai'i's "Polystyrene Foam Food Container and Food Service Ware Reduction" ordinance is effective July 1, 2019.

For more information go to [www.HawaiiZeroWaste.org/reduce/foam-free-hawaii-county](http://www.HawaiiZeroWaste.org/reduce/foam-free-hawaii-county)
